**Re: *Rinde v. The Corporation of the President of the Church of Jesus  
Christ of Latter-Day Saints***

Dear Michelle:

We want to address several expert witness issues and would appreciate your giving us a call. We outline our concerns in writing so you can review the same with the lawyers on your team. Then we can decide whether we can stipulate regarding certain dates or whether the matter should be subject to motion practice.

First, we believe the plaintiff should disclose their expert witnesses at least a month before the defendant's disclosure. The Court's order contemplates a simultaneous disclosure effective November 8, 2007. Under the circumstances of this case, we believe the party carrying the burden of proof should disclose first. We enclose a draft stipulation which we request that you consider and execute.

Second, we want Mr. Rinde to be examined in Seattle by a consulting psychologist retained by us. We anticipate that this examination and related testing will require two consecutive days (second day would be less than four hours), as well as a half a day two or three days later. We request that we schedule this examination in late July and no later than mid-September 2007. We would appreciate your response to this request.

Third, we request that we jointly work to get production of all psychological testing data to date. None of this data (Dr. Winger—Douglas County Hospital and Dr. Manley—Two Rivers Psychiatric Hospital) was produced. If this data is available, we suspect Dr. Winger and/or Dr. Manley may require production only to a licensed psychologist. Can you have your legal assistant first contact their offices and see if the data exists; and, if so, under what conditions can we get copies of the same?

Michelle Menely

We would appreciate your response to these issues. Thanks.

Yours very truly,

Michelle,

You requested that Dr. Rosen's evaluation be conducted in August. He is generally available in August—except for August 17 and 31. Remember, he wants two consecutive days (the second a half of a day) and a third session preferably the same week two days or so after the second session. The third session will be a half a day as well.

We would appreciate confirming dates convenient with Mr. Rinde. We would like to set the schedule as soon as practical—before Dr. Rosen's calendar changes.

Thanks, Chuck

Michelle and Mary,

This will give you a "heads-up" regarding the above matter. Attached is a letter being mailed as we speak. We understand this presents an attorney/client issue which you will have to discuss. We ask that you let us know the extent, if any, that discovery will be allowed absent a ruling by Judge Robert.

**Re: Robert Rinde f/k/a Robert Larry Leroy Pitsor v. Corporation of  
the President of the Church of Jesus Christ of Latter-day Saints**

Dear Michelle:

As you may recall, the records of Dr. Nix reflect the retention of Mary Fleck by Robert Rinde in 1996. Examples of these references are included with this letter. We are copying Mary with this letter so that she is informed about what follows.

We believe that deposition/document discovery should be allowed to the extent Mr. Rinde sought out legal counsel in 1996 regarding a potential claim against either or both Mr. Lewis and the LDS Church. We anticipate that Mr. Rinde will defend against any statute of limitations motion based upon repressed memory or inability to connect his symptoms to the Scoutmaster abuse. In this regard, we believe the prevailing case law dictates that the information provided to Mary and her firm by Mr. Rinde would be discoverable. In short, Mr. Rinde's lawsuit has put his 1996 actions "at issue."

We would request the following:

1. You two confer and verify if any documents relating to the 1996 retention/consultation are still in existence. If so, we request that they be accumulated and maintained so as to avoid any inadvertent destruction.
2. You determine the extent, if any, of discovery that you will allow against Mary or other lawyers in her firm who may have participated in this retention.

Michelle Menely  
July 5, 2007  
Page 2

3. If discovery is not agreed, we request your cooperating in drafting an agreed statement of facts so that we can move the Court for discovery and avoid meaningless time and expense to establish an appropriate motion record.

In considering the above, we request you refer to Pappas v. Holloway, 114 Wn.2d 198 (1990); Hearn v. Rhay, 68 F.R.D. 574 (E.D. Wash. 1975); 1st Sec. Bank of Wash. v. Eriksen, 2007 U.S. Dist. LEXIS 4449 (W.D. Wash. 2007); Pyramid Controls, Inc. v. Siemens Industrial Automations, Inc., 176 F.R.D. 269 (N.D. Ill. 1997); Kordek v. United Agric. Products, Inc., 2007 U.S. Dist. LEXIS 27903 (N.D. Ill. 2007); and Darius v. Briscoe, 1999 Mass. Super. LEXIS 429 (Mass Super. Ct. 1999).

It is our intent to pursue this in the most effective and efficient manner. We look forward to your response to the above.

Yours very truly,

Charles C. Gordon

In addition to the above, we also received a call at our office from Robert's attorney, Mary Fleck, during the month of May. Mary faxed a Release of Information. I shared with her in a telephone conversation my observations and verified the fact that I felt the abuse had, of course, taken place and that there was significant impact which was affecting Robert today.

Dear President Skeem,

It has come to my attention that an agreement with the church, Jan Nix and myself is not being met by the church. I have enclosed the statement of activity which includes record of payments. The agreement that I refer to was made verbally between myself and Bishop Hansen on or about June 06, 1996. At that time Bishop Hansen stated that these expenses minus insurance coverage would be paid in full by the church.

As you can see from the enclosed copy of this statement there is an out standing balance of \$1743.55. I would like to clear this expeditiously as possible. I would appreciate a reply in writing, you may respond to me at the above address.

I prefer to handle this matter personally, however, if necessary I will seek legal council to get this issue resolved. I expect to hear from you within fifteen calendar days from the date of this letter. If I do not hear from you by May 15, 1997. I will have no choice but to seek other avenues of remuneration. This does not include or exclude legal action.

Sincerely,

Robert P. Rindé

Michelle, I got your message. Let me know what is up. We have attached two documents listing depositions we would like to schedule at this time. I think the best approach is to determine the availability of the Health care providers and then see if we can fit in the two fact witnesses.

In this regard, two questions. First, will John Schulz or an attorney at his firm, take the lead on defending these depositions? If so, we will coordinate with his office. Second, do you have any problem with us contacting the appropriate nurses/scheduling clerks for these professionals to determine potential availability? We would not talk about anything except dates and places for the requested depositions.

It is our hope and intent to get this done in one week---if practical.

Let me know your thoughts on the above. Chuck
